

instructions for using listen and surf

To open our great new Jukebox function simply click on the [open jukebox now](#) link on the Listen and Surf banner on the home page at:

www.newworldmusic.com/uk/

The Jukebox will automatically appear in a new Internet Explorer window.

Simply click on the track you wish to play and it will automatically start and will continue to play through the rest of the playlist.

To select an individual track from the list use the vertical scroll bar to view all the tracks on offer and click on your choice to play.

If you would like more information on the respective album titles, simply click on the album image or the *buy this album* link underneath it.

This will open up a new window with all the information about the album title - including more sound samples and an option to purchase.

The jukebox will continue to play and stay open whilst you browse the net.

To close the player simply click on the red 'X' box on the upper right hand corner of the window.
